Get ready for a high-energy homage to the ladies who topped the charts!

Sarah, Deanna & Susan perform an amazing mix of female vocal groups and artists from the early days of Rock & Roll and Motown to Disco and more.

From The Supremes to Dionne Warwick, Lesley Gore to Donna Summer, Aretha & so many more, The Chiclettes will get you moving as they showcase the female artists that dominated the music scene for the last five decades. Performing favorites from the 60's, 70's, and beyond, they remind us of the fantastic female contributions these artists made to the pop music scene through the years. Their high-energy appeal is universal; the young and young-at-heart appreciate them alike!

The Chiclettes have shared the stage with multiple Rock & Roll Hall of Famers, and also use their harmony talents to back up artists like Little Anthony, Bobby Rydell, Eddie Holman, Mel Carter, Bobby Wilson & more.

They have appeared on NBC, PIX, QED TV & CBS radio in addition to venues of all types & sizes, and social media events around the country. They are also repeat performers on the Time/Life© sponsored Malt Shop Memories Cruise yearly.

They continue the tradition of being an exciting, unique addition to any performing arts calendar. Wherever they perform, the combination of energetic talent & live recreations of some of the greatest songs ever recorded always leaves a happy crowd wanting more!
